  - **PFAS in Leachate: Exploring the Full Spectrum of Treatment Solutions**
  - Adam Lirette is the Business Development Manager for ECT2, an equipment company focused on developing and commercializing treatment technologies for emerging, difficult-to-treat contaminants. Adam’s focus is assisting industrial and municipal clients in developing solutions to meet their environmental challenges. Adam has been in the water and wastewater treatment industry since 2015 and joined ECT2 earlier this year to lead the commercialization of ECT2’s range of treatment technologies for the sustainable treatment of PFAS, 1,4-dioxane, and other emerging contaminants in the northeastern United States. He received his B.S. in Chemical Engineering from Worcester Polytechnic Institute (WPI) in Worcester, MA.
